To whom so ever it may concern

This is to certify that Vedant Chavan, resident of B/1306, Oberoi Exquisite, Goregaon East Mumbai, India has been actively involved in volunteering during Covid Lockdowns.

One of the unique things he undertook for us as senior citizens is to make us aware of digital mediums and smart phones to enable us to become independent in tough times during pandemic. As the lockdowns prevailed for longer durations we struggled to adapt to fast evolving digital economy.

Vedant took initiative and created 5 digital modules to remove fear about use of technology from us. He spent time with us individually and in group to make us learn about using internet using WhatsApp to connect with our loved ones and friends through video calls and audio messages. Also lessons on making online payments, downloading newspaper apps and ordering groceries from online portals made us feel very confident and independent.

During such challenging times, being able to carry out basic important things with use of technology was really helping us to improve our self confidence to deal with the pandemic. It was a very touching gesture that Vedant in a very thoughtful way took this initiative and spent time for us. He is really a wonderful asset to our community, and we are confident he will be a great asset to any institution he joins for his higher studies.

Our Sincere Thanks
Best wishes. for the initiative taken by Vedant. Best wishes for future endeavours
